# WEEK 2

Rupees. Dollars. Pounds. Euros. **SALES** - the most important department in any organization. Sales is the department that generates revenue. No matter how good your manufacturing operation is, how cutting-edge your technology is, how tight your financial goals are or how progressive and forward-thinking your management techniques are, you must still have a sales mechanism in place, or everything else is useless. Needless to say that this is the most important week for entrepreneurs, You will learn the best practices of successful sales, **14 TOP CLOSING TECHNIQUES**, how to make a sales dashboard and so much more. This week we will also cover, How to hire the best salespeople and how to manage & retain them effectively. Next you will learn **26 BEST PRACTICES OF MARKETING**, this will cover both offline marketing like customer engagements, community outreach, affiliate marketing, discounts etc. and online marketing like facebook marketing, instagram marketing, blogs, content marketing, etc. You will learn **M-B-A** which is marketing, branding and advertising. What are **22 IMMUTABLE LAWS OF BRANDING**, and how to make a Branding KIT. Second week will end with **GET YOUR 100 INITIAL PAYING CUSTOMERS** - which is exactly what it says.

## WEEK 3

Business owners seek out cash to help with its growth or to keep it going through a rough patch. So, planning how to **FUND A BUSINESS** is very important. From the plethora of Funding options available today you will learn which of the funding options are most effective for you and your business. Next is **BOOTSTRAPPING** - business grows, it generates revenue which enables further growth. What are the best practices of bootstrapping and how to incorporate them into your everyday operation can change the game for business. Your ability to read a balance sheet is directly proportional to your ability to run a successful business. **BALANCE SHEET & P&L**, may seem intimidating, but don't worry. You will learn how to improve your profits, two golden rules to good financial management, creating financially intelligent organization, etc. Next is **VALUATION OF STARTUP** - How would you measure the value of a company? Since, entrepreneurs need to put a value on their startups in order to raise money and distribute equity among core team and investors. A very crucial topic since it will help you solve major funding, investment and even HR related issues. Valuation of a startup will be followed by Bookkeeping - it involves the recording of financial transactions and other information related to the business on a day-to-day basis. A simple yet important subject as it directly affects your profit statements. Last is **23 REVENUE MODELS**, a revenue model is a plan or an outline of how your business will make money - you will learn what are the top 23 revenue models ever and out of these 23 which suits your business and your market segment the best.

## WEEK 4

Last week you will learn the top skills which contribute to success of any organization, entrepreneur, employee or startup. These are - **PHOTOSHOP** will help you create content on the go. Be it editing images for your social marketing or create amazing graphics for your website. Photoshop will help you take your content to next level and stand out and ahead from the competition. Want to create an amazing logo for you company or design a huge flex for your promotion and branding, Illustrator is the answer. With **ILLUSTRATOR** you will learn how to create beautiful graphics fast & easy. **WEBSITE** is hero of this century. How - tell us one good business you know who doesn't have a website? A good website can boost a business whereas a bad one can drastically affect it too. And why pay someone else to do it when making a good interactive website is so damn easy. You will learn how to make a website from scratch, how to use awesome photos without spending on a shoot, create an online payment gateway & customer chat box. With **WEBSHOP** you will learn how to create an online shop for your products. Learn e-commerce, f-commerce and i-commerce. Remember we mentioned bookkeeping in week 3 - **TALLY** or **QUICKBOOKS** help you maintain your everyday financial transactions super easily. You can see how your money is travelling, what product makes you most profit, where you can use cost cutting, where you can increase your profit margins - everyday, week, month and year. Keep your finances up to date and in check.
